5. KEY RISK FACTORS IDENTIFIED

■ GST not registered — regulatory non-compliance.

- MCA21/ROC non-compliance.
 - Severe litigation exposure — requires legal clearance.
 - Leverage extremely high (D/E 2.1x vs industry ~1.0x).
 - Current ratio below RBI's recommended 1.33 for working capital loans.
 - High negative media coverage detected.
-

6. POSITIVE CREDIT ATTRIBUTES

- Strong DSCR indicates comfortable debt-servicing ability.
 - Healthy ICR — earnings comfortably cover interest payments.
 - Strong revenue growth trend noted.
 - IT / Technology is a relatively stable sector.
-

7. ANALYST NARRATIVE & RECOMMENDATION

The applicant presents significant credit risks that preclude sanction under current parameters. Key concerns include elevated leverage, weakening debt-service coverage, and/or adverse qualitative indicators. The credit officer recommends declining the current application. The applicant may reapply upon demonstrating material improvement in financial metrics over two consecutive quarters.
